

## Willow Class Half Term Learning grid Summer 2: Sustainability

### Writing Year 4 and Year 5

<p style="text-align: center;"><b>Blue planet explanation sequence to images</b></p> <ul style="list-style-type: none"> <li>-Choose nouns or pronouns appropriately for clarity and cohesion and to avoid repetition</li> <li>-Use an increasing range of sentence length and structure</li> <li>-Use fronted adverbials followed by a comma</li> <li>-Make deliberate choices of sentence length and structure for impact on the reader</li> <li>-Use semi colons, colons or dashes to mark boundaries between independent clauses</li> <li>-Use expanded noun phrases to convey complicated information concisely</li> </ul>	<p style="text-align: center;"><b>TEXT The Hidden Forest Setting descriptions and viewpoint narrative</b></p> <ul style="list-style-type: none"> <li>-Choose nouns or pronouns appropriately for clarity and cohesion and to avoid repetition</li> <li>-Use an increasing range of sentence length and structure</li> <li>-Use figurative language such as similes, alliteration to build a picture in the readers head</li> <li>-Use expanded noun phrases to convey complicated information concisely</li> <li>-Use fronted prepositional phrases for greater effect</li> </ul>	<p style="text-align: center;"><b>TEXT The Hidden Forest: Magazine Articles</b></p> <ul style="list-style-type: none"> <li>-Choose nouns or pronouns appropriately for clarity and cohesion and to avoid repetition</li> <li>-Use an increasing range of sentence length and structure</li> <li>-Produce internally coherent paragraphs in logical sequence e.g. using topic sentences with main ideas supported by subsequent sentences</li> <li>-Description or detail in non-narrative is expanded through an appropriate and precise range of vocabulary</li> <li>-Viewpoint is consistently maintained (for example, word choice indicates child's viewpoint)</li> <li>-Use a wide range of devices to build cohesion within paragraphs</li> <li>-Linking ideas across paragraphs using adverbials of time (later), place (nearby) number (secondly)</li> <li>-Linking ideas across paragraphs through tense choice (this has happened before)</li> <li>-Produce internally coherent paragraphs in logical sequence e.g. posing rhetorical questions which are answered in the main paragraph with main ideas elaborated by subsequent sentences</li> <li>-Choose the appropriate register for the audience and purpose (formal or informal)</li> </ul>
--	---	--

### Mathematics Year 4 and Year 5

<p style="text-align: center;"><b>Measurement/time</b></p> <ul style="list-style-type: none"> <li>-Estimate, compare and calculate different measures, including money in pounds and pence</li> <li>-Read, write and convert time between analogue and digital 12 and 24-hour clocks</li> <li>-Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days.</li> <li>-Estimate, compare and calculate different measures, including money in pounds and pence (repeat from Phase 1, 2 deeper level)</li> <li>-Use all four operations to solve problems involving measure (e.g. length, mass, volume, money) using decimal notation including scaling.</li> <li>-Understand and use equivalences between metric units and common imperial units such as inches, pounds and pints</li> <li>-Estimate volume (e.g. using 1 cm<sup>3</sup> blocks to build cubes and cuboids) and capacity (e.g. using water)</li> <li>-Measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres</li> <li>- Calculate and compare the area of rectangle (including squares) and including using standard units, square centimetres (cm<sup>2</sup>) and square metres (m<sup>2</sup>) and estimate the area of irregular shapes</li> <li>- Solve problems involving converting between units of time</li> </ul>	<p style="text-align: center;"><b>Number facts, Methods and place Value</b></p> <ul style="list-style-type: none"> <li>- Read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.</li> <li>-Count backwards through zero to include negative numbers</li> <li>-Round any number to the nearest 10, 100 or 1000</li> <li>-Multiplication and division facts for multiplication tables up to 12 x 12 and Multiplying together three numbers</li> <li>-Recognise and use factor pairs and</li> <li>-Commutativity in mental calculations</li> <li>-Multiply two-digit and three-digit numbers by a one-digit number using formal written layout</li> <li>-Using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects.</li> <li>-Count forwards or backwards in steps of powers of 10 for any given number up to 1,000,000</li> <li>-Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers through zero.</li> <li>-Read Roman numerals to 1000 (M) and recognise years written in Roman numerals.</li> <li>-Establish whether a number up to 100 is prime and recall prime numbers up to 19</li> <li>-Multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers</li> <li>-Divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context</li> <li>-Recognise and use square numbers and cube numbers, and the notation for squared (2) and cubed (3)</li> </ul>	<p style="text-align: center;"><b>Fractions Decimals and Percentages</b></p> <ul style="list-style-type: none"> <li>- Solve problems involving to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number</li> <li>- Recognise and show, using diagrams, families of common equivalent fractions</li> <li>-Recognise that hundredths arise when dividing an object by a hundred and dividing tenths by ten.</li> <li>-Solve problems involving number up to three decimal places</li> <li>- Solve problems which require knowing percentage and decimal equivalents of 1/2, 1/4, 1/5, 2/5, 4/5 or those with a denominator of a multiple 10 or 25.</li> <li>- Identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths</li> <li>- Read and write decimal numbers as fractions (e.g. 0.71 = 71/100)</li> <li>- Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents</li> <li>-Recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction and as a decimal fraction.</li> </ul>
---	---	--

### Willow Class Wider Subject areas

<p><b>Science</b> <b>Sound</b></p> <p>Children know the words pitch, vibrations and volume.</p> <p>Children know how some sounds are made, linking this to vibrations, e.g. a drum with rice in it.</p> <p>Children know that sounds travel through a medium to the ear.</p> <p>Children know that the pitch of the sound is determined by the different features of an object.</p> <p>Children know that the volume of sound is linked to the vibrations it produces.</p> <p>Children know that as you go further away from a sound it gets fainter.</p>	<p><b>Computing</b> <b>Coding and Digital Design</b></p> <p>Follow simple instructions to create shapes</p> <p>Write 2Logo</p> <p>Find efficient ways to program shapes</p> <p>Use procedures to create shapes in 2Logo</p>	<p><b>PE</b> <b>Fundamentals of Movement</b></p> <p>Athletics</p> <p>Dance - Production</p>	<p><b>DT</b> <b>Healthy Eating (Make and Evaluate)</b></p> <p>Children know how to form a design criteria for a healthy snack in line with the items nutritive value and seasonality.</p> <p>Children know how to use their senses to evaluate different components to their snack and adapt their design accordingly.</p> <p>Children know how to evaluate their product against their design brief and conclude what they could do to improve their product.</p>	<p><b>Geography</b> <b>Wonders: Natural Resources</b></p> <p>Use maps to locate countries and describe features studied</p> <p>Use the eight points of a compass to build our knowledge of the wider world</p> <p>explore the distribution of natural resources (water)</p> <p>I can identify global issues with regards too much/too little rainfall and make links with the water cycle</p> <p>Explore the distribution of resources (energy)</p> <p>I can understand types of energy</p> <p>I can explore natural resources on our school site (another opportunity for fieldwork)</p>	<p><b>RE</b> <b>Kingdom of God/What kind of a king is Jesus?</b></p> <p>Children know some different interpretations of between the biblical text and the Kingdom of God.</p> <p>Children know some connection between belief in the Kingdom of God and how Christians put their beliefs into practice in different ways.</p> <p>Children know examples of how Christian teachings can relate to their own issues, problems and opportunities in their lives.</p>	<p><b>PSHE</b> <b>Relationships Education</b></p> <p>I can identify key parts of the human reproductive system</p> <p>I can identify appropriate boundaries in relationships</p> <p>I can describe different types of positive relationships</p> <p>I can explain the key facts about the menstrual cycle.</p> <p>I can describe the physical and emotional changes during puberty</p> <p>I can explain the key facts about the menstrual cycle.</p>

The Big events this term are: Trip to Winchester Science Centre - Sound Workshop  
Key stage 2 Show- Buggy Malone  
The Core values and learning keys we will be focusing on are: evaluate, explore, teamwork

**Willow Class Half Term Learning grid  
Summer 2: Sustainability**
